

People Prepared

Getting prepared for emergencies at home can significantly reduce the impacts and support recovery for you and your family.

An emergency grab bag is one way of ensuring you have the essentials ready to go during an emergency. Everyone in your household should have one and its up to what you wish to keep inside the bag.

But you may wish to consider the following:

- ✓ Water
- ✓ Non-perishable foods
- ✓ First aid and medication
- ✓ Phone charger
- ✓ Torch and spare batteries
- ✓ Insurance details and Passports

Don't forget about the needs of young infants or babies as well as any household pets.

Take the time to complete this plan with your family and remember to keep a copy in your grab bag.
